Dear DIGIVET4ALL project partners,

We got the agreement from the national agency, signed it and sent it to the NA.

The project runs for 24 months starting 1.9.2019 and finishing on 31.8.2021. This is the time period within which we'll be carrying out the project activities.

The grant is 183 563 € for the whole project. Find attached the budget annex and by scrolling down the pdf you'll find your organization's share of the budget. There are all sort of budget categories and if this information is new to you, worry not, all will be explained at the project kick off here in Porvoo at latest.

The National Agency will transfer 80 % of the total sum to Careeria as we are the lead partner. The last 20 % will be transferred to us after we have completed the project including the final report.

We will, as the lead partner, draw agreements with each partner. I will do these as soon as I have attended a training by the NA. Most probably we'll be using the same template we've used before in earlier projects but I just want to be sure and attend the training first. I'll get the agreements to you in September.

After we have done the agreements, we will transfer 40 % of your organization's total share to your account. The next 40 % will follow after the interim report has been returned in autumn 2020. The last 20 % you'll get after the final report has been approved and the project finished in 2021.

I'll write you another message about practical arrangements for the kick off, who should be involved etc. soon.

If you have any questions don't hesitate to contact me.

Kind Regards
