Dearest colleagues,

I hope you are enjoying summer holidays wherever you are ☺

This is to inform you that we have good news as the KA2 project has been approved by the Spanish national agency. Yay!

Thank you all again for your support in the project submission during last month of March and please note we will get back to you as soon as possible, i.e. by end of August, regarding the project launch according to the proposed calendar and planning.

We look forward to start working with you on the *Industrial VET Hub* very soon.

Best wishes,

Sol
