Dear All,

As You have today received the message, You AutoCove project is one of the chosen projects this year.

Grant preparation has been started with our Auto-Cove - project and the finance of the project is conditional until all requested information is submitted to the European Commission. So I kindly ask You: all partners, including the companies, to complete the requested information as soon as possible to the European Commission.

I am most happy to receive these news today.

If You, also I have been very excited about opening my mails every day during the past month.

And today we finally received the results.

We belong to projects, which have been chosen to grant preparation.

I send You in the attachments the important information, I also picked from the Funding and Tenders portal.

We will be in touch, but please inform your all key persons also about this great news ☺.

With kind and happy regards,

Elina Kollanus
